**Message for the
Delhi Book Fair 2020**

Books entertain, inform and open up new worlds. They are the original information highway. And the Delhi Book Fair in its virtual avataar will introduce you to all the great literature and information that India can offer and show you how the Indian printing and publishing industry is adapting to new technologies and new consumer trends. Don't miss this great opportunity to see all that India has to offer, whether it is stories, ancient wisdom, knowledge of modern disciplines, alternative lifestyles...in short, a whole new universe.

(Anita Nayar)
